Terminal Disclaimer

The terminal disclaimer filed on 10/31/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,853,745 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Response to Amendment

The amendment received 11/07/05 has been entered in full. Currently claims 3-4, and 9-15 are pending in the application.

Allowable Subject Matter

Claims 3-4, and 9-15 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claim 3, none of the prior art discloses a method of recognizing objects under various lighting conditions comprising in combination with the other limitations: deriving a reflectance function that describes an approximation of the set of all possible rendered images that each three dimensional model can produce under all possible lighting conditions, said rendered images including both diffusely and specularly reflected light; and optimizing the reflectance function to determine rendered image of each model that is most similar to the input image. Claim 4 is dependent on claim 3, thus is allowable for the same reasons given for claim 3. Regarding claim 9, none of the prior art discloses a method of image recognition of an input image, the method comprising in combination with the other limitations: generating a set of harmonic images for a three dimensional model, the harmonic images forming the basis for a linear subspace, and approximating

the specular and scattering reflectance on the candidate object when illuminated by a harmonic light, and selecting a candidate image by seeking a vector of harmonic coefficients that minimizes the difference between the input image and the candidate image. Thus claim 9 and its dependent claims 10-15 are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
